

Global Verification Made Simple.

CORPORATE PROFILE

ABOUT US

We are a well-established leader in education verification with an excellent, growing, global coverage of over 200 countries and 40,000 institutions.

## About Us

Qualification Check is trusted by thousands of organisations for quick and accurate verification

Over the last decade, we have grown to become a world leader in education verification and a specialist in simplifying verification processes.

We are driven by a desire to protect the world from fake qualifications and documents. In addition, thanks to our technological capabilities, our ambition is to help organisations and institutions save time and resources by simplifying and speeding up the traditionally complex and slow verification process.

Our commitment to satisfying our customers and tailoring our products to suit their needs, made us a well-respected, industry leader in the UK and globally.

We conduct verifications in over 200 countries which means our customers have access to complete worldwide coverage and never have to worry about missing out. We're proud to have multi-lingual teams offering English, Arabic, Hindi, Spanish, Italian, Russian, Portuguese, Turkish and much more.

While we have achieved our initial goals, as a company we continue to set new challenges. We are as passionate as ever about making the world a more transparent, trustworthy place – one check at a time.

# Core Values

## FIGHTING FRAUD

We combat the risk of fraud by satisfying the global demand for secure verification.

## EFFICIENCY

We save valuable resources for institutions so they can allocate more time for other important tasks.

## DATA SECURITY

As our platform handles data, it's important that we guarantee security and protection.

## INNOVATION

From the flexibility of our solutions to the way we serve our customers, we'll never stop evolving.

## AUTOMATION

We don't take jobs away, we make them simpler by reducing the burden on human intervention.

## ADAPTABILITY

One size never fits all. We create tailored solutions to suit our client's industry-specific needs.

We will always be a customer-centric, technology-focused company which delivers innovative verification solutions to organisations around the world.

OUR SOLUTIONS

AUTOVERIFY

AutoVerify makes complex verification processes fast, easy and stress-free.

Our software conveniently arranges all incoming verification requests in one centralised place. It's simple – one platform and one point of contact.

## About AutoVerify

AutoVerify is an extension of Qualification Check's verification services designed to support universities in managing the ongoing requests to verify their students' qualifications.

The platform is created to automatically and smartly manage the countless number of incoming verification requests that universities receive on a daily basis from different sources such as background screeners, companies, employers and recruiters.

Our intuitive platform conveniently arranges and organises all incoming verification requests from multiple sources into one centralised place, processing them fast and efficiently. As an innovative and secure platform it makes complex verification processes simple, saves resources for universities and frees up time for administrators to focus on other meaningful work.

AutoVerify set up and maintenance costs are zero and it will generate a new revenue stream for your university whilst saving you time and money!

# How it works

It's simple - one platform and one point of contact.

## Customisable Integration

We can tailor AutoVerify to suit your needs, so you can get started with ease. To start, you can choose between 'Pro' and 'Lite' depending on the level of automation you're comfortable with.

Auto**Verify** Pro

With 'AutoVerify Pro', verification is processed automatically using our innovative software to cross-check against your records without any human intervention. This means you can allocate more time to other important tasks.

Auto**Verify** Lite

'AutoVerify Lite' gives you access to our all-in-one management platform without having to integrate it. Don't worry about handling multiple incoming verification requests from multiple sources – Lite organises them all into one centralised platform.
