EPIC
concepts

✓ Tenant Screening

✓ Background Screening Automation

✓ Hiring and Post Hire Employer Tools

✓ Integrations with ATS & Payroll Systems

Epic Concepts specializes in SECURE data communications for Personal Identifiable Information (PII).

Our cloud-based applications provide employment management tools for non-profit organizations, churches and corporates alike.

It saves time, is "EZy" to use, and greatly improves the efficiency of workforce and volunteer management.

Built on .NET & SQL infrastructure, the benefits to EZy product users include:

- ⊕ Security & Control
- ⊕ Auto-updates
- ⊕ Cost Savings
- ⊕ Flexibility
- ⊕ Scalability

At Epic Concepts we value creativity and being flexible to make new ideas a reality.

We are customer focused and aim to improve the experience of your customers so that they stay your customers for many years to come.
